### Camp Guidelines:

#### Age Limits

All campers must be the appropriate age before the start of their camp session.

#### What to Bring

Campers will spend most of their time outdoors and active during the camp programs. We strongly recommend that campers bring a water bottle to stay well hydrated. Your child should wear clothes that are comfortable for outdoor activities and hands-on, occasionally messy fun. Campers may wish to bring a backpack to carry extra clothing and take projects home in.

#### Weather

Camp GBBG utilizes the natural environment of the Garden as much as possible during each session. Your child will spend most of the camp day outdoors when weather permits. Please send campers with the appropriate clothing and rain gear depending on the weather forecast. If the weather will be sunny, please apply sunscreen at home before camp starts for the day.

#### Snack

We provide a healthy, peanut-free snack for all camp attendees. If your child has food allergies, please make us aware upon registration. We regret that we are unable to provide special snacks; if your child has food allergies that may prevent him from consuming the provided snack, please pack an alternative.

#### Special Health Needs

If your child has special health needs please make us aware upon registration. It is the parent's responsibility to provide all necessary information to the Garden prior to your child attending camp.

#### Accessibility

GBBG's Visitor Center and most of the grounds are ADA-compliant. Handicapped parking spaces are available in the parking lot.

#### Staffing

In order to provide the best possible experiences for your children, all camps are limited to 20 campers. Camps are led by Green Bay Botanical Garden staff with assistance from interns and volunteers. Please plan to register early.
