

The Carol and Bruce Bell Children's Garden includes two areas with splash pad and water-spraying features. Teachers and chaperones are responsible for establishing and monitoring expectations with these water features.

Ground Rules

1. Respect the plants, animals, and one another so that we all succeed.
2. When guides are teaching, listen with open ears to hear things you want to know.
3. Let the guide lead us and stay with the group so we have more time for learning and fun.
4. As we explore with our senses, we'll leave things where they are for others to enjoy too.
5. Use quiet voices inside the building as not to disturb others.

Guidelines for Teachers and Chaperones

1. Teachers and adult chaperones are responsible for supervising their groups, which includes discipline and first aid as needed.
2. Please remember that the field trip is for the students:
 - a. Avoid chatting with the other adults; it can be distracting for everyone and makes it difficult for the students to hear what the guide is saying.
 - b. Let the students answer the questions. Any personal gardening questions should be saved for the end of the field trip.
 - c. Turn off or silence cell phones during the field trip.
 - d. Make alternate arrangements for younger children who are not part of the group.
3. Make sure that all adults and students follow the Ground Rules so guides can focus on teaching.
